

## FABRICATION

- PERTEX® Shield + provides exceptionally high fabric breathability at 25,000 MVTR and a 20,000mm hydrostatic head
- PEAQ Down lining that is comfortable next to the skin, highly breathable and fast drying
- 360g of 90/10 high quality goose down at 800+ fill power, certified non live plucked and non force fed
- Fully waterproof with taped seams and baffles throughout

## ZIP

- ½ length YKK VISLON® zip that is angled away from the shoulder to prevent body contact whilst user is sleeping on side and allow easier access from inside
- Fine microfleece facings and roll over hook and loop closure flap at top of YKK zip for extra comfort
- Locking zip head to avoid unexpected zip opening
- Glow in the dark zip pull for easier night time location without head torch
- 3-D shaped baffle behind YKK zip

## CONSTRUCTION

- Outer and inner anatomically designed shape tapers around lower legs and curves around shoulders
- Offset vertical trapezoidal baffles across chest to prevent cold spots
- Horizontal baffles around lower legs and feet
- Flipper shaped foot box in lower leg area tapering from knees to ankles which helps reduce cold spots. Specifically tailored to cater for upright foot position

## NECK BAFFLE

- Neck baffle is specifically shaped to encase the whole circumference of neck
- Drawcord arrangement in baffle enables further adjustment and pulls insulation closer around the neck

## UPPER BAG

- 3-D shaped hood design based on years of MONTANE® clothing construction experience, in particular the award-winning technical mountaineering jacket hood design
- Hood shaping to prevent down migration and to limit cold spots
- Split, colour coded face drawcords to control and adjust volume individually around upper and lower face. Drawcords easily accessed from inside the sleeping bag

## FURTHER FEATURES

- Underside of sleeping bag features non-slip silicone roundels to help grip sleeping mat and bivvy bag
- Foot box hang loops for storage and drying
- Internal stretch mesh water bottle pocket on right hand side
- Internal pocket on left hand side with concealed YKK zip for storage of MP3, mobile phone, GPS etc.
- Includes MONTANE® cotton storage bag and dry bag
- Dry bag storage doubles as a pillow whilst stuffed with clothing and features a non-slip silicone roundel for extra grip. Features pull handle on base
- Dry bag shape differs from traditional tub stuff sacs; constructed with a packable shape and to fit more easily in packs
