

FABRICATION

- Constructed from PERTEX® Microlight Mini Rip-stop that is lightweight, windproof, breathable and features a durable water repellency
- PEAQ Synthetic lining that is comfortable next to the skin, highly breathable and fast drying
- 160g PRIMALOFT® SILVER ECO that is lightweight, warm and dries remarkably quickly

ZIP

- ¾ length YKK VISLON® zip that is angled away from the shoulder to prevent body contact whilst user is sleeping on side and to allow easier access from inside
- Fine microfleece facings and roll over hook and loop closure flap at top of YKK zip for extra comfort
- Two way YKK VISLON® zip for lower access or ventilation whilst zip is drawn up
- Sleeping bag zip opens fully at bottom to completely open sleeping bag to aid airing and drying
- Locking zip heads to avoid unexpected zip opening
- Glow in the dark zip pulls for easier night time location without head torch
- Single volume baffle behind YKK zip

CONSTRUCTION

- Outer and inner anatomically designed shape tapers around lower legs and curves around shoulders
- Side walls to upper part of body ensure there is insulation to shoulders and head area whilst sleeping on side
- Top stitch lines across outer shell to fix PRIMALOFT® insulation in place and prevent synthetic migration
- Flipper shaped foot box in lower leg area tapering from knees to ankles which helps reduce cold spots. Specifically tailored to cater for upright foot position

NECK BAFFLE

- Neck baffle is specifically shaped to encase the whole circumference of the neck
- Drawcord arrangement in baffle enables further adjustment and pulls insulation closer around the neck

UPPER BAG

- 3-D shaped hood design based on years of MONTANE® clothing construction experience, in particular the award-winning technical mountaineering jacket hood design
- Split, colour coded face drawcords to control and adjust volume individually around upper and lower face. Drawcords easily accessed from inside the sleeping bag
- Soft brushed microfleece inner next to chin and mouth area

FURTHER FEATURES

- Underside of sleeping bag features non-slip silicone MONTANE® roundels to help grip sleeping mat or bivvy bag
- Foot box hang loops for storage and drying
- Internal stretch mesh water bottle pocket on right hand side
- Internal pocket on left hand side with concealed YKK zip for storage of MP3, mobile phone, GPS etc.

- Includes MONTANE® cotton storage bag and dry bag
- Dry bag storage doubles as a pillow whilst stuffed with clothing and features a non-slip silicone roundel for extra grip. Features pull handle on base
- Dry bag shape differs from traditional tub stuff sacs; constructed with a packable shape and to fit more easily in packs
